

# Opening Screen

A hand-drawn sketch of a software opening screen. The screen is divided into two main vertical sections by a single line. The left section is labeled 'Directory Tree'. The right section contains a rounded rectangular box labeled 'Buttons' which lists three actions: 'Analyse ELF', 'Generate SBOM', and 'Query'. The entire sketch is drawn with simple, slightly irregular lines, giving it a conceptual or wireframe appearance.

Directory Tree

## Buttons

- Analyse ELF
- Generate SBOM
- Query

## Analyse ELF

Description (Optional)

Library Paths (Optional)

Filename (Optional)

Buttons

- Analyse ELF
- Cancel

## Generate SBOM

SPDX/CycloneDX (radio button)

Format (Tag/JSON/YAML)

Filename (Optional)

### Buttons

- Generate
- Cancel

## Query

Query term

Number of results

Verbose (checkbox)

## Buttons

- Run
- Cancel

## Query Results

1. Data
2. Data
- ....
10. Data

Search within results??

## Buttons

- Next
- Previous
